SECRET

Note for Brig. Gen. Robert Smith USAF:

Word has been received at CIA/PIC that it might soon expect to be designated as the National Photographic Interpretation Center. In connection therewith it might be anticipated that the whole pattern of military representation, including perhaps the joint and specified commands, might now be coming under consideration and review. Lundahl would welcome the opportunity of talking with Gen. Smith on these and related subjects sometime when the latter is in Washington and could spend a little time at CIA/PIC.
